

# SUPPORT PUBLIC HEALTH CARE

## The Ontario Health Coalition 2nd Annual Organic Local Garlic Fundraiser

The Ontario Health Coalition is a grassroots community group that educates and campaigns for increased public engagement in policy related to health care and healthy communities. We work to protect our public single-tier health system from privatization and cuts, and to honour and strengthen the principles of the Canada Health Act.

By ordering garlic with us, you are supporting this vital work and you are also supporting your good health and local farmers by purchasing **fresh, organic and Ontario grown garlic.**

**This year, there are three choices for those ordering garlic. All orders come with our favorite garlic recipes and information about the local farmers who produce the garlic in a little booklet. All garlic is organic and Ontario-grown.**
