Ontario - grown garlic!

**Ontario Health Coalition 4th Annual Garlic Fundraiser - SUPPORT PUBLIC HEALTH CARE!**

The Ontario Health Coalition is a grassroots community group that educates and campaigns for increased public engagement in policy related to health care and healthy communities. We work to protect our public single-tier health system from privatization and cuts, and to honour and strengthen the principles of the Canada Health Act. By ordering garlic with us, you are supporting this vital work and you are also supporting your good health as well as local farmers by purchasing fresh, organic and Ontario-grown garlic.

Order forms can be downloaded at [www.ontariohealthcoalition.ca](http://www.ontariohealthcoalition.ca)
